Additional information will be forthcoming regarding training dates and locations.

### **STUDENT GROWTH MEASURES AND ALIGNMENT SPECIALISTS**

To support the implementation of the Student Growth Measures component of the evaluation systems, ODE is working in collaboration with select regional partner RttT Educational Service Centers to train and deploy Student Growth Measures (SGM) and Alignment Specialists. These SGM Specialists will support LEAs by providing technical assistance and professional development following the regional trainings to district administrators, teachers, and other personnel on the alignment of local systems to the state framework and development and implementation of district and building student growth measures using the SLO process.
